After Your Treatment

Root canal: Avoid chewing on the treated side until the final filling or crown is placed. Numbness usually wears off in 2 to 4 hours, so avoid hot food during that time. **Extraction:** Do not rinse your mouth or use a straw for the first 24 hours. Bite on the gauze for 30 minutes. **Whitening:** Avoid tea, coffee, red wine and smoking for 48 hours.

If you have severe pain, swelling or bleeding that does not stop, call the clinic immediately. Outside clinic hours, go to the nearest hospital emergency department.

Warranty

Crowns and implants carry a warranty against manufacturing defects: 5 years for crowns and 10 years for implants. The warranty does not cover damage due to accidents or lack of regular check-ups every 6 months.
