# Nimbus CRM - Plans, Billing and Product FAQ

*Last updated: 15 March 2026. This is a fictional document created for testing an AI customer support assistant.*

## 1. Plans and Pricing

Nimbus CRM is a cloud customer relationship management tool for small and mid-size teams. Prices are per user per month in Indian Rupees, excluding 18% GST.

| Plan | Billed annually | Billed monthly | Who it is for |
|---|---|---|---|
| Free | Rs. 0 | Rs. 0 | Up to 2 users and 500 contacts |
| Starter | Rs. 799 | Rs. 999 | Small teams getting started |
| Growth | Rs. 1,799 | Rs. 2,199 | Growing sales teams that need automation |
| Enterprise | Custom | Custom | Minimum 50 users |

Annual billing saves about 20% compared with monthly billing. Annual plans are paid upfront for 12 months.

## 2. Plan Limits and Features

**Contacts and storage.** Starter allows up to 10,000 contacts and 10 GB of file storage per organization. Growth allows up to 100,000 contacts and 100 GB of storage. Enterprise has custom limits.

**API limits.** Starter includes 10,000 API calls per day. Growth includes 100,000 API calls per day. Enterprise limits are set in the contract.

**Integrations.** Gmail and Outlook email sync, Google Calendar and Slack are available on Starter and above. WhatsApp Business integration, workflow automation and custom reports are available on Growth and Enterprise only.

**Security.** Single sign-on (SAML SSO), audit logs and a 99.9% uptime SLA are available on the Enterprise plan only. All plans use encryption in transit and at rest, and data is hosted in Mumbai.

## 3. Free Trial

New organizations get a 14-day free trial of the Growth plan. No credit card is required. At the end of the trial, the account moves to the Free plan unless you choose a paid plan. Contacts above the Free plan limit become read-only but are not deleted.

## 4. Billing and Refunds

**Adding and removing users.** You can add users at any time. The charge is pro-rated for the remaining billing period. Users can be removed only at renewal.

**Refunds.** Annual plans can be cancelled for a full refund within 14 days of purchase or renewal. After 14 days annual plans are not refundable. Monthly plans are never refunded for the current month, but you can cancel at any time to stop future charges.

**Invoices.** GST invoices are issued automatically. To add your GSTIN, go to Settings, then Billing, and enter it before your next invoice date. Invoices cannot be re-issued with a new GSTIN after payment.

**Failed payments.** If a payment fails, we retry 3 times over 7 days. After that the workspace becomes read-only. It is fully restored as soon as payment succeeds.

## 5. Data Export and Account Deletion

You can export all contacts, deals and notes as CSV files at any time from Settings, then Data. When a paid subscription ends, your data is kept for 60 days and then permanently deleted. Deleted data cannot be recovered.

## 6. Support

| Plan | Support channel | Response time |
|---|---|---|
| Free | Help center only | No guaranteed response |
| Starter | Email | Within 48 hours |
| Growth | Email and live chat | Within 12 hours |
| Enterprise | 24x7 phone and a dedicated manager | Within 1 hour for critical issues |

Live chat is available Monday to Friday, 10 AM to 6 PM IST. Email: help@nimbuscrm.example.
